Choice Gladioli

MME. MOUNET-SULLY

AS GROWN BY

L. S. REAM

Paulding, Ohio

Flowers

GOOD and raiment are for the body, but flowers! flowers are for both body and soul. When my lips are palsied by great emotions—love, gladness, sorrow, death—and the words I would write come not, then I send soul-messengers—flowers.

When I look upon a rose, all nightmares of atheism vanish; when I inhale the rare perfume of violets, I bow to the Master Chemist; when my pencil tries to trace the graceful flutings of the dahlia, or my brush match the exquisite color blendings of the modern gladiolus, I reverently acknowledge the High Hand of Art.

Some days, when I am in perfect attune with the Creator-God, I know I hear melodies, strangely sweet, amongst my flowers, and songs—songs like the morning stars must have sung together at the birth of Him—The Rose of Sharon.

Without flowers my body could live, but I know my soul would starve.

—WILL P. SNYDER.

LET'S GET ACQUAINTED
IF YOU LOVE FLOWERS.

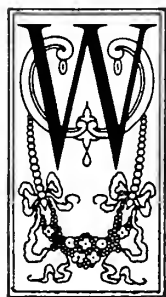

I am pleased to greet you.

Truly yours,

L. S. Ream

To Our Friends

WE take great pleasure in presenting you this Catalogue which contains a list of over 350 varieties of choice Gladioli. A wonderful improvement has been made in the Gladiolus in the last few years. Those who are acquainted only with the old style Gladioli which grow in grandmother's garden will hardly recognize the large and gorgeous flowers of the modern hybrids which are the result of thousands of crosses made by specialists in this line of work. These modern hybrids embrace many varieties producing from 15 to 25 blooms on a single spike and flowers from 5 to 7 inches in diameter. The combinations of colors and beautiful markings of the petals and throat cannot be surpassed by any other flower.

In making up this list we have attempted to furnish something that would interest the connoisseur as well as the novice.

We have not attempted to give a complete description of these modern beauties that cover a range of colors from the brightest blood reds to some of the most delicate shades and blendings of pink, blue and yellow; in fact we have all the colors of the Rainbow brought out and magnified in these magnificent flowers. No other flower gives so much satisfaction at so small expense. If you have never grown any of the newer varieties listed in this booklet give them a trial. They will be a delight to the eye and a joy to the soul.

We have not attempted to give a complete description as it would require too much space and we give only description enough to give the prevailing color that you may know in what color class to place them.

To the connoisseur who may be looking for some of the new and rare varieties, we hope that you will find something in our list that you will want to give a trial or having tried will want to increase your stock.

To the novice who wants something good and at the very lowest price we would recommend our AMATEUR MIXTURE which you will find listed on Page 16, and then the Standard varieties such as AMERICA, NIAGARA, PANAMA, HALLEY, IDA VAN, LILLY LEHMAN, GOV. HANLY, and BARON HULOT are still among the best in their class and it will be many years before we will want to do without them. We would recommend that you buy specimen bulbs of the newer varieties and learn to know them so that you may be able to select them from the mixture and will know what varieties you want to grow.

We guarantee all stock sold to be true to name, fresh, clean stock, large enough always to bloom the first season, but we will not be held liable for any damage other than to replace free of charge or refund the purchase price of any that are found to be otherwise.

We quote prices on single bulbs and will furnish one dozen at ten times the single rate, larger quantities a matter of correspondence.

Our prices on single bulbs and dozen lots are delivered POSTPAID. Larger quantities will be shipped by either Parcel Post or Express, charges to be paid by the purchaser.

TERMS

Terms cash with the order. Orders booked for spring delivery must be accompanied with a cash deposit of not less than 20 percent of the amount of the order, the balance to be paid before shipment is made.

**OUR SPECIALS**

For several years we have been growing choice Gladioli without any thought of issuing a Catalogue and have saved the cormels from all of our choice varieties together which we have grown into merchantable sized bulbs and added to this mixture many lots of bulbs from which the label would become lost and in this way we have accumulated a stock of several thousand choice bulbs which we are offering under the title of **AMATEUR MIXTURE**. This mixture should appeal to both the novice and to the growers who know the different varieties as it will give them an opportunity to get some of the high priced varieties at a reduced price.

Our **AMERICAS** are slightly mixed with **PANAMA** and we have not attempted to separate them. We have rogued them of all other varieties, but as Panama and America blend so nicely and bloom at practically the same time have not deemed it profitable or wise to separate them.

	Doz.	100	1000
AMATEUR MIXTURE.....	\$0.40	\$2.50	\$20.00
DEINER'S MIXTURE.....	1.00	6.00	50.00

On all orders for specimen bulbs amounting to \$5.00 or more we will give a discount of 10%.

Our stock of some of the varieties listed is very limited so you had better place your orders early.
